

High-Performance Thin-Layer Chromatography – Planar Chromatography Beyond the Ordinary!

The Crowne Plaza Princeton, Princeton, New Jersey, November 18, 2019

You are invited to join us for the first international HPTLC conference in the USA, jointly organized by the North American Chapter of the International Association for the Advancement of High-Performance Thin-Layer Chromatography (HPTLC Association) and the Eastern Analytical Symposium (EAS).

Hear from national and international experts on novel concepts and unique applications of HPTLC and its state in North American analytics. In addition, the Association will organize a one-day HPTLC short course and instrument illustration at EAS on November 17, 2019.

The HPTLC conference registration includes attendance of the entire EAS (November 18-20) with access to leading edge oral sessions in analytical chemistry applications, techniques and instrumentation and a state-of-the-art instrumentation exposition. You can register for the short course through the EAS website (www.eas.org).

Mark your calendars and look out for more information to follow!

The HPTLC Association promotes the use of HPTLC in plant analysis and other analytical fields. It is a non-profit international organization incorporated in Rheinfelden, Switzerland, with worldwide chapters and membership.

The Eastern Analytical Symposium (EAS) and Exposition has been in existence since 1959. The yearly event is attended by about 2000 scientists and offers several hundred oral and poster presentations by world authorities in analytical chemistry. The EAS also provides an ongoing education program that includes technical short courses, seminars and professional development workshops. EAS has 12 sponsoring organizations including the Analytical Division of the American Chemical Society.
